

# ANDRÉ MENDES

## Backend Software Engineer

**City/State/Country** Araraquara/SP/Brazil

**WhatsApp/Telegram** +55 65 98117 3729; andre@mendesc.com

### Education

**Computer Science Bachelor [2009 - 2013] UFMT** – incomplete

### Synopsis

Over 8 years of experience developing backend software systems for web applications. I am passionate about Typescript, NestJS and software development in general. I have experience developing and maintaining solutions on client-focused software deployed on the cloud.

I've got excellent communication skills and I am a good team member. I can handle incidents, write reports and documentation. Deep knowledge of automating tasks, creating and consuming APIs, talking either REST or GraphQL, writing unit and integration tests, doing web-scraping and making Robotic Software Automation.

I am a Free Software and Open-source Contributor and have experience with Amazon Cloud (EC2, S3, Lambda, SQS, RDS and more) and Azure Cloud. I have experience working with international clients on overseas teams and can read/write/speak in English and Portuguese. Good Linux knowledge

### Career Summary
